

As 2008 comes to an end, the staff at Homes of the 20th century wanted to take a moment to thank you for your support in choosing us as your home builder. For many of our customers, the purchase / construction of their home is one of their single largest personal investments and it is an honor to have served as your builder of choice. While every project is different and has its own set of challenges, it is our belief that every one of our homes is built to the best of our abilities. We believe this pride and attention to detail is reflected in your home and hope you share our thoughts.

At Homes of the 20th Century, we are also asking our clients to help us in these challenging economic times. As you have no doubt read or seen on television, the real estate / home construction market is experiencing near record lows and it has been a struggle to continue operating. However, we believe with the support of our family, friends, and clients, we will emerge from this economic meltdown stronger for having preserved.

As a full service builder, Homes of the 20th Century also offers a full suit of remodeling services. We are asking all of our clients to consider us for any of their remodeling needs. In addition, we have a Friends & Family referral program. This program offers a cash reward for anyone whose home construction / remodeling project results in a contract. If you are interested, please call (219)-942-0608 for more information.

Thank you in advance for your time and consideration. We hope that 2010 brings good fortune to all and ask that you help Homes of the 20th Century by sharing this information with friends, family, co workers, etc...
